Career Overview

Systems/Software Engineer with over 7 years of experience in crafting and managing high-performance web applications within resilient microservices architectures. Proficient in leveraging technologies like Spring Boot, Java EE, and RESTful APIs to deliver scalable solutions that meet demanding performance requirements. Demonstrated expertise in both frontend and backend technologies, with a strong focus on performance optimization, problem-solving, and seamless third-party API integration. Adept at collaborating effectively within Agile and Scrum team environments.

Programming Language	Java, Python, C##, Typescript, JavaScript
Frameworks	Spring Boot, Spring MVC, Spring Security, Spring Cloud, Hibernate, React, Bootstrap, Thymeleaf
Databases	MySQL, PostgreSQL, Google Sheets, MongoDB
Tools	Google Work Space Tools, CGP, Microsoft Office Tools, IntelliJ IDEA, VS Code, Eclipse, Git, GitHub, Maven, Gradle, Docker, AWS, Postman, Insomnia, JIRA, Confluence
Web Technologies	HTML, CSS, Java Server Pages, Servlets
Concepts	Object-Oriented Programming (OOP), Design Patterns, Microservices Architecture, Test-Driven Development (TDD), Continuous Integration/Continuous Deployment (CI/CD), Version Control Systems, Agile Development / Scrum

Professional Experience

Systems/Software Engineer

FIRI Solutions, NG

Jan. 2022 - Present

- Collaborated with a team of developers to design and implement web applications using GAS, VUE, and HTML5.
- Conducted code reviews and ensured adherence to best practices and coding standards.
- Participated in Agile development processes, contributing to sprint planning, daily stand-ups, and retrospectives.
- Implemented automated testing and continuous integration pipelines to enhance software quality and deployment efficiency.

Software Engineer

Decagon

April 2024 - Oct. 2024

- Designed and developed server-side logic and RESTful APIs using Spring Boot, improving the functionality and user experience by 25%.
- Implemented comprehensive unit and integration testing with JUnit and Mockito, enhancing code reliability and maintainability.
- Optimized database queries and designed reports using MySQL, Postgres, improving data retrieval and visibility by 8%.
- Participated in multiple industry conferences and educational programs to stay updated with current best practices and emerging technologies.

Assistant Project Manager

Dammac Global, NG

Oct. 2020 - Dec. 2021

- Developed an intranet solution to centralize crucial information, improving communication and productivity across departments.
- Played a crucial role in streamlining project management tasks and ensuring project success through task prioritization, schedule management,

and proactive problem-solving.

Operation Supervisor

Total Gas Station, Ikeja, NG

Feb. 2017 - Aug. 2018

- Led operations management and inventory control.
- Enhanced leadership skills through clear communication, transparency, and respect in a high-pressure environment.

Logistics & Customs Clearance

Remight Freight Concept, Apapa, Lagos NG

Dec. 2015 - Dec. 2016

- Managed logistics and customs clearance, ensuring smooth container movement across borders.
- Coordinated logistics and transportation schedules, optimizing routes and improving efficiency.

Marine Engineer

G&S Shipping, Apapa, Lagos NG

May 2013 - Oct. 2015

- Maintained ship engines, collaborating with engineering teams to ensure smooth operations.
- Developed resilience and teamwork skills through hands-on engineering tasks and troubleshooting.

Education

- B.Sc Computer Science (2018 - 2020).
- OND Maritime Academy of Nigeria (2012 - 2015)
- Green Pastures High School (2002 - 2008)
